

Do We Really Know the Truth About 9/11?

EDITORIAL

What really happened on the morning of September 11, 2001? Why did the people at the top of the U.S. military chain of command—Bush and Rumsfeld, Gens. Myers, Eberhard, Winfield and Mies—fail to act during the decisive portion of the attacks? Why did the air defense system fail to carry out its standard responses for intercepting errant planes, procedures which it had implemented some 67 times during the nine months prior to June 1, 2001?

How did the World Trade Center towers really come down? What brought down a third skyscraper, the 47-story WTC Building 7, that wasn't even hit by an airplane?

Why did U.S. officials take four years to admit, only recently, that they had alleged hijacker Mohamed Atta under surveillance a year before the attacks, as part of the Pentagon's "Able Danger" operation? Why is there still no admission that the members of the "Hamburg Cell" were under constant surveillance by CIA and allied foreign agencies for years before 2001?

Why were FBI investigators blocked from tracking the alleged hijackers before 9/11? Why was there no action on early, numerous and specific warnings from foreign governments that an attack was imminent? Who was protecting the men who would later be blamed for the "Attack On America," and why?

Why did *The 9/11 Commission Report* ignore most of the real questions posed by the September 11th victims' families? Who financed the hijacking operation, and why did the 9/11 Commission say "the question is of little practical significance"? Why did it avoid bodies of evidence pointing to a circle of complicity within the US government and its covert agencies?

Immediately after 9/11 the U.S. government ignored all questions and did two things. First, it marched us into a "pre-emptive," costly, open-ended "war on terror", with military invasions of Afghanistan and Iraq, both planned and prepared long in advance of 9/11. And secondly, it brought the war home to America, in the form of the USA PATRIOT Act and related legislative assaults on our civil liberties and the Constitution.

We, of the broad based "9/11 truth movement" across America and the world believe that getting justice for all the victims of 9/11 is the means by which which we can both achieve peace and secure our liberties. And yet, in order to do so we must confront and expose the role of the mass media in suppressing the truth of 9/11.

As a consequence, we researchers, activists and ordinary citizens with common sense are compelled to make our case directly to you, the public, for only we, the people, can act to expose the 9/11 cover-up.

Every day we are warned of the potential for new horrors, targets of a strategy of panic designed to keep us quiet.

People in New York City, particularly people of color, are being subjected to random searches as they board subways, violations of our Fourth Amendment rights. These searches won't stop any terrorists, because they are not designed to do so, but may simply be one of the most extensive trial balloons for martial law in American history.

And this was before the horror of Katrina allowed an even greater test of military rule on our soil: The commander of US forces moving into New Orleans declared to *Army Times* (Sept. 2) that the city will soon look like "a little Somalia," for it is currently in the hands of an "insurgency" that must be crushed.

That is America after 9/11. There is nothing new in governments that degenerate into tyranny and plunder, or who use the tools of fear to keep the people confused and ready to accept policies they would never otherwise desire. When did a "great power" launch a war, without a big lie to start it? There would be nothing new about a government that allowed or even engineered an attack on its own people for political and economic gain. The list of historical precedents for both "false-flag" terror attacks and for false "casus belli" is long and sorrowful, both in this country and around the world. The United States is not unique.

Shall we be ruled by fear and the urge for flight, or shall we get together with others and stand up and fight? Shall we stay on the road to perpetual war, fiscal ruin and a police state, or shall we build a world of freedom, justice and peace? Shall we remain ruled by the lie, or live together in the light of truth? Our democracy is under threat, it is in mortal danger. The truth of 9/11 can help reignite the fire of patriotic dissent in us all and help bring about justice for the victims of 9/11, both here and around the world.

We can and must choose a different world! We invite you to participate in the ongoing 9/11 Truth events in New York City and the World. (frm/nl)

NO MORE CORPORATE MEDIA COMPLICITY WITH GOVERNMENT LIES!

IT'S NOT JUST ABOUT 9/11

POISONING THE PEOPLE

In the days immediately following 9/11, New Yorkers were misled by false assurances about the Ground Zero air. Remember Christie Todd Whitman saying that the air was safe, that no special precautions were necessary? Two years later, it was revealed that the White House had forced the Environmental Protection Agency to suppress an initial assessment that the air was deadly. How many lives were shortened as a result? What does this tell us about the government's willingness to sacrifice Americans on behalf of corporate interests?

LIES TO INVADE IRAQ

There was no Iraqi connection to 9/11, no matter how many times the Bush administration has said so. That is an "outrageous conspiracy theory," to use George W. Bush's own term. The Downing Street Minutes confirm what those who opposed the invasion from the beginning knew all along: The White House and Pentagon lied about Iraqi "weapons of mass destruction" and terrorist connections to justify an imperial adventure that had been planned years in advance as "The Project for a New American Century."

ELECTION THEFT - 2000 & 2004

Most people have realized that the loser of the 2000 popular vote came to power thanks to massive frauds in Florida and a an unconstitutional Supreme Court decision to suspend the recounts that would have established Bush was the runner-up in that state. In 2004, Bush kept power thanks to fakery by Ohio Secretary of State Blackwell, who also headed the state's Bush-Cheney campaign—and thanks to the black-box, no paper-trail electronic voting machines from Diebold, Sequoia and ES&S. Consider that when an election result abroad is displeasing to the US government, it cites exit polling as evidence of wrong-doing. In the US, the 2004 exit polls in a dozen swing states showed massive discrepancies compared to the official vote count—in every case favoring one candidate, Bush, in an unprecedented statistical miracle. One need not support Kerry, who after all did nothing and watched as other parties contested the unlikely results of November 2004, to realize that without a verifiable paper trail and an end to partisan control of elections, the last semblance of democracy will vanish.

The list goes on... This is what happens when we have government of the corporations, by the big lie, and for the bankers.

What Action Looks Like

GOING VIRAL WITH 9/11 TRUTH

Millions of people are at various levels of discovery that the official explanation of 9/11 is a lie. After the immediate question of *why*, people logically tend to ask: *What can I do about it?* Are you ready to dispel the illusion of powerlessness? Here are just four things you can do.

Get Informed: There are now thousands of web sites concerned with 9/11. We hope the listings on the opposite page are a good start. New Yorkers can sign up for the e-mail list at the NY 9/11 Truth site (at www.ny911truth.org) to learn about ongoing events.

Inform Others: We all know 200 to 300 people. You might start by urging people you know are open-minded to see the information for themselves. For those you think would be harder to convince, you might give them a book, or a DVD to watch. (To get a grasp of typical reactions that people have to 9/11 skepticism, see: www.ny911truth.org/articles/talking_points.htm.)

Inform Elected Officials: The reason for elected officials is to have representation in local and national affairs, right? So here's a plan: The week of Sept. 11 and on the 11th of every month thereafter, take 15 minutes to call your elected officials. Call the town council and urge them to pass a resolution to reject *The 9/11 Commission Report* and demand a real investigation. Call your state officials to tell them 9/11 was an inside job used to launch wars lasting generations and diverting hundreds of billions of your tax dollars away from domestic needs to fund a globalist agenda for resource confiscation. Call your federal officials to tell them it's time to show courage and honesty, or be swept out!

The Group Process: Antiwar, educational, church and civic groups all basically deal with issues symptomatic of a larger, pathological power structure and its agenda. As with cancer, if one doesn't address the root cause, death is certain. We must all realize that understanding the forces behind 9/11—and its role in a larger pattern of history—will expose the power structure that has us all by the throat. We don't have decades to wait for the truth and if there's another staged attack, we may face military rule. But 9/11 truth presents an unprecedented opportunity to understand the decades-long march of covert manipulations designed to establish absolute political control of our world, and to see the forces behind the curtain. These have subjected us to forced dependence on fossil fuels, debt and wage slavery, a hardship economy, deterioration of our ecosystem, and untold carnage and devastation. 9/11 can serve as the pathway to awakening and a rediscovery of responsible citizenship. Let's dispel our illusion, expose the big lie, disempower the rapacious globalist power structure, and recreate reality that ensures true human progress for all.
